

SANUVAIR®

Par/By **SANUVOX**

Introducing our latest air purification & odor removal system: **Sanuvair® S600** Specially designed for garbage rooms!

Sanuvair® S600 is designed for optimum results!

The hydroxyl technology eliminates odors associated with enclosed garbage rooms. This unit also reduces odor back draft in trash chutes.

With the patented UV photolysis technology, odors are dramatically reduced and the presence of flies and insects will also decrease within the room!

SANUVAIR® S600 Benefits

A Top of the Line UV Air Purification & Odor Removal System!

Greatly simplifies
waste management maintenance!

Fresh Air and Peace of Mind!

Benefits

- **No more odors!**
 - Reduction of airborne bacteria and germs
